# OUR MISSION —

Creating Efficient And Enjoyable Work Spaces For Our Clients.

SUCCESSFUL HISTORY OF  
CREATIVE DESIGN AND  
QUALITY PRODUCTION  
SINCE

2000

IN THE HEART  
OF CHINA

> 18

YEARS

OF INNOVATIVE  
SOLUTIONS FOR  
MODERN OFFICE

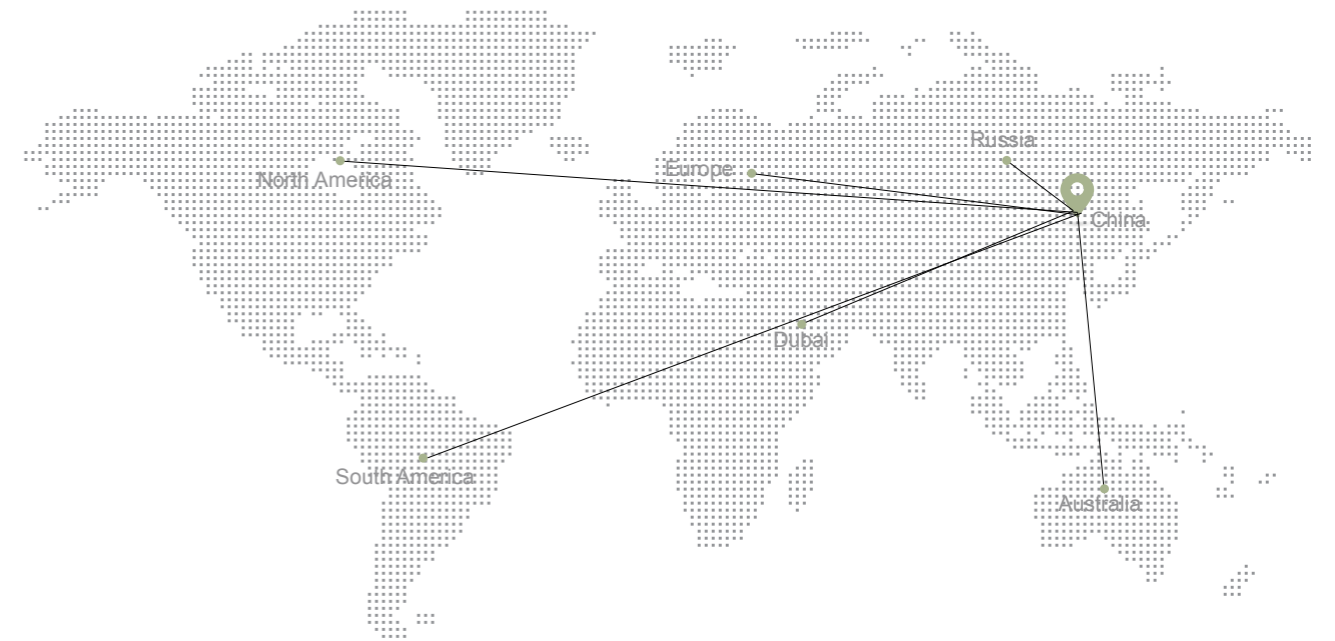

> 60,000 FACTORY AREA,  
SQUARE METERS

> 350 EMPLOYEES

> 22 MARKETS

> 3 AFTER SERVICE CENTERS

We provide convenient and efficient delivery services for many domestic and foreign companies. And use this as the core to radiate more places. The products cooperate with industry, government, medical, finance, education, military and other industries. The company has been acting and making unremitting efforts to contribute its own strength and serve the society.

More than 22 countries and regions around the world to provide convenient and efficient distribution services and to ensure that within 48 hours to provide users with high-quality office environment solutions. Continued to this day, we vigorously expand the international market, with the global outstanding enterprises to grow!

## WHO WE ARE?

We are Omni, founded in 2000, Omni has been a pioneer in ergonomics and is now a global manufacturer of products that create workplace well-being. We are located in Yangzhou, near Shanghai in China, and specialize in producing a wide variety of office solutions that are OEM compatible. Omni provides a full exporting service to our customers guaranteeing accurate and on-time international deliveries. We create products to make life better.

## WHAT WE VALUE?

It's easy to make a product that looks great. It's not so easy to make one that still looks good after years of heavy use. At Omni, we believe that the best designs in the world are based on customer purpose and function. If the design solves these simply and elegantly, the resulting form will be timeless and relevant across cultures.

# MORE

We use the sensitive and open antenna to follow the latest trends of the market. We design all kinds of fashionable market. Simple and casual, it will satisfy your need to the greatest extent.

## SIT/STAND EFFICIENCY

Since we began, we've believed that the modern workplace must be an active one. Sit/stand is an important part of this, but many companies are struggling with how to best implement it. Historically, most companies have implemented Sit/stand by giving everyone that capability. Yet studies have shown that the percentage of employees (around 40%) who are given a Sit/stand desk will actually use it. Omni designed the Sit/stand solution, that can be given to everyone. Today, more and more companies are taking this more efficient approach and finding that Sit/stand utilization is often higher.

# STORY

Medical research has highlighted that we should spend at least 40% of our time standing at work.

Whilst standing all day can lead to back, knee or foot problems, remaining in a sitting position for more than 2 hours at a time significantly increases health risks. It has been suggested that regularly standing up at work has a number of health benefits including reduced risk of obesity, reduced risk of type 2 diabetes, reduced risk of cardiovascular disease and a reduced risk of cancer.

Omni's Motion Table range integrates the adjustment mechanisms seamlessly into the desk frame giving a clean and less mechanical appearance. Omni products can also be installed as single desks or clustered workstations. This improves the efficiency of the structure as well as providing users with the means to configure and arrange workstations to suit their interior space.

# Two Legs Solution-Rectangle

## Original Designed Frame

Maximum load:120kgs  
Low standby power:<0.1w

## STRUCTURE

H-legs structure makes the desk more stable, this is a competitive solution for operative workspaces that require versatility.

## WIRE MANAGEMENT

A wire management system is fitted to the bench frame and provides umbilical risers, ceiling entry, and horizontal trays for cable distribution.

## TOP

Multi-use single tables have laminate tops and white-black gloss steel legs fitted with glides.

## COLUMN

Omni guarantees adaptable layouts and solutions that support a collection of ways to work, enable an integral customization for each user, while providing concealed power and data.

## CUSTOMIZATION

Our large formal CNC technology provides advanced capabilities and a wide range of solutions to meet and needs. Let Us Build Your Next Product!

## WIDE RANGE

A small number of elements can be combined to create a wide range of office types. Offering great flexibility for adapting to new situations as needed.

# Face-To-Face Modular Bench Solution

“Meet Your Team”

You'll meet with your dedicated agent to discuss your needs and map out your real estate strategy. Omni gives you the flexibility and adaptability to create your desired setting for today as well as being able to evolve affordably in the future. This is engineered to save space and adapt by using interchangeable components.

## Give Us A Challenge

The modern office is a combination of collaborative zones and traditional workplace privacy. The simplicity of electric height adjustment, the symmetry of double-sided and single-sided desks, the eye-catching design of colorful & practical privacy screens, and the health and productivity boosts of periodic standing throughout the day.

# Wire Management

Power outlets and cables are fully concealed in the center technology raceway. Smart tops provide socket access to data ports and the standard 4-circuit power system. For frequent user access, surface- and edge-mount power and data options assure connections are always close at hand.

Power socket with different options, UL approved

Keep the lower standby power consumption to just 0.1W

## Face-To-Face Modular Bench Solution

“Where Company Becomes Community”

Space has the power to transform business – unlocking the potential of people and organizations. Intentional design, warm hospitality and flexible solutions enable your team to do their best work.

# Face-To-Face Modular Bench Solution
